

Technology Transfer of Banana Flour Based Baby Food

Banana flour based Baby Food is a beneficial value added product made out of matured green bananas. The baby food is prepared from banana flour fortified with milk, green gram and sugar powders for baby food preparation. The technology was transferred to Mr. Pappu Elango, Trichy, M/s. Gem Healthcare, Coimbatore, Mr. Rakesh, J., Bengaluru on 03.03.2016 under Licensing of Technical Know-how at ICAR-NRC Banana, Trichy, Tamil Nadu. In this connection, hands-on training of the product was imparted to the clients by Post-harvest Technology Section of the Centre. During the occasion, Dr. M. Mayil Vaganan, Director-In-Charge, ICAR-NRCB handed over the signed MoU copies of the technology to the clients in the presence of Dr. M.S. Saraswathi, Officer-In-Charge, ITMU.
